AMENDMENTS TO THE CLAIMS

Please add or amend the claims to read as follows, and cancel without prejudice or disclaimer to resubmission in a divisional or continuation application claims indicated as cancelled:

1. (Currently Amended) An acupressure ring for use on an outer finger, and comprising two or more rings sized to be worn closely around the finger of a user and having a visual indicator visible when the rings are worn on the outer finger and a projection extending inwardly from an inner surface of said acupressure ring, the projection being approximately orthogonal to the visual indicator, wherein said visual indicator is provided by a break in said acupressure ring.
2. (Previously Presented) An acupressure ring according to claim 1, wherein said projection has a mid-point, which is approximately 90° around said acupressure ring from said mid-point of said visual indicator.
3. (Previously Presented) An acupressure ring according to claim 1, in which the cross section of the projection is round, cylindrical, conical, square or rectangular.
4. (Previously Presented) An acupressure ring according to claim 3, wherein said projection is a single projection.
5. (Previously Presented) An acupressure ring according to claim 4, wherein the acupressure ring is comprised of two rings.
6. (Previously Presented) An acupressure ring according to claim 5, wherein a bridging member connects each one of the rings.
7. (Canceled)
8. (Previously Presented) An acupressure ring according to claim 1, wherein the distance that said projection extends from said inner surface is from 1 to 4 mm.
9. (Previously Presented) An acupressure ring according to claim 8, wherein the distance is from 1.6 to 2.0 mm.
- 10-14. (Canceled)
